

Immigration and cultural integration

This course is about understanding what is meant by cultural integration.

It means creating a society in which different cultures coexist peacefully and enrich each other. This not only promotes diversity and tolerance, but also helps build a stronger and more cohesive society. Cultural integration is also important for sustainability.

Learning objectives

Participants will be able to:

- Understand the importance of a cultural integration in the European context
- Work in groups to understand the local reality in relation to the migrants living in the city of Modena/Napoli/Ascoli
- Cooperate with foreign students to understand how and if they have integrated into the local reality while maintaining their cultural identity
- Know the Italian organization for welcoming foreign students
